Password Reset Procedure

1. Purpose

This document explains how employees can reset their organization password.

2. Password Requirements

Passwords should contain at least eight characters and include a combination of letters, numbers, and special characters.

3. Password Reset

Open the employee account portal and select the Password Reset option. Complete identity verification and create a new password.

4. Account Lockout

An account may be temporarily locked after multiple unsuccessful login attempts.

5. OTP Verification

Identity verification may require a one-time password sent to the employee's registered contact method.

6. IT Helpdesk

If the password reset process fails, contact the IT helpdesk with the employee account identifier and a description of the problem.
